### *Coming by car from the East on the M-40 or M-30 motorways*

- If you are coming via the M30 motorway eastbound take the super-south node and then the M40 westbound, or take the Toledo-bound motorway and then the westbound M40.
- If you are coming from the Toledo motorway take the M40 westbound.

Once on the M40 take Exit 27 direction Badajoz/Leganes/R-5/Via Lusitana/Toledo. Upon exiting the M40, take *immediately* the ramp to the right, indicated direction Leganes/Via Lusitana. Stay in the left hand lane of the ramp until you reach a roundabout. At this roundabout go to the left (you will pass over the M40), taking the third exit – a dual carriageway which is signposted M425 Leganes. Continue on this dual carriageway, going straight ahead at several roundabouts – following the road signage to “Leganes” and “Centro Urbano” until you reach a roundabout with three large sculptures of heads on top of pillars. (On the map above you will see a road coming from the top right hand side, labeled “Ctra de Madrid a Leganes” - this roundabout is shown and “Avda. Del Dos de Mayo” is clearly labeled). This is known as the “Glorieta Fuente de Leganes” – the Leganes Fountain roundabout. Take the first exit towards the Avda. del Dos de Mayo, which is also signposted “B° de la Fortuna/Alcorcón”. The next roundabout features a statue of a horse with four heads. (This is known locally as the “Glorieta Caballo de Agua”.)

At this roundabout take the first exit, (this is actually “Avda. del Mar Mediterráneo”), which is signposted “B° de la Fortuna/Alcorcón”. Go straight over the first roundabout and then through the traffic lights towards a second roundabout. As you approach the second roundabout you will see the shopping centre

“Leganes Uno” and a large sign for Burger King on your right hand side. Our building is located on the opposing side of this roundabout and to the right – a three-storey red brick building displaying several large signs indicating “IMDEA Networks Institute”.

### *Coming by car from the West on the M-40 or M30 motorways*

From the M40 motorway take exit 30, signposted "La Fortuna". (Take care, because there is another exit before this one which is indicated “Leganes” that you should not take)

Once you have taken the exit 30 follow the dual carriageway towards Leganes town centre. (La Fortuna is a local neighborhood that you should not pass through). At the roundabout take the first exit and join the M411 (also known as the “Carretera de la Fortuna” – Motorway of La Fortuna), go straight over the next five roundabouts and when you reach the sixth (which occasionally features a working fountain) you will see our building to your right – a three-storey red brick building displaying several large signs indicating “IMDEA Networks Institute”. (On your left hand side you will see the shopping centre “Leganes Uno” and a large sign for Burger King.) You have reached your destination. Take the first right at the roundabout and find a suitable parking space.

### *Parking*

In front of our building, with its entrance on “Avda. del Mar Mediterraneo”, is a small car park which sometimes has spare spaces which visitors may use. Failing this, the adjoining roads, such as “Avda. del Mar Mediterraneo”, usually have a large number of free-to-use car parking spaces.
